

BENEFITTING THE ENVIRONMENT AND SUPPORTING LOCAL COMMUNITIES

NEWSLETTER
2025

"The support has helped my consultancy operate more efficiently and serve local businesses better." - Christiaan George, Owner

SMME'S BOOSTED BY SUPPLIER DEVELOPMENT

A small business in Kenhardt is helping local entrepreneurs and NGOs become compliant and ready for new opportunities.

Khawuleza Projects and Consulting supports up to 20 community businesses with COIDA registration, tax clearance, safety files, and company registration. The consultancy's office was also upgraded, creating a fully equipped walk-in centre in town.

This programme strengthens local enterprise, helping businesses respond to opportunities, secure contracts, and build a self-sufficient community in Kenhardt.

SUPPORT FOR FUTURE EDUCATORS

Bursary support is helping young people pursue education and give back to their communities. 19-year-old Aaliyah Selborne is studying a Bachelor of Education through UNISA with funding from our bursary programme.

Covering tuition, books, travel, accommodation, and daily expenses, the bursary allows Aaliyah to focus on her studies.

"Once I have completed my studies, I look forward to being a passionate educator, providing a strong foundation in my hometown."

The programme has supported over a dozen local youth, helping shape brighter futures for families in the ZF Mgcawu district.

WELCOME TO OUR NEW SOCIAL SPECIALIST

Born and raised in the Northern Cape, Glen Berkat has joined our team as Social Specialist, supporting the coordination of our economic development programmes.

With over ten years' experience in the safety and security sector, he brings strong community-focused expertise.

Passionate about sustainable development in renewable energy, Glen looks forward to learning from our community and contributing meaningfully to our initiatives.
